# Are we just April Fools?

No Fools here.

Since 2000, we've been building, maintaining and continuously expanding the industry's leading database of newspaper advertising information.

Big dailies, small dailies, metro freebies, alternative weeklies, Hispanic papers, newspaper websites, lifestyle papers. Circulation, tech specs, deadlines, even pricing. You name it, we've got it.

All the raindrops we counted are bottled for your convenience and available via PlanET, our online planning and estimating system. No foolin'.
