

In this most challenging year, please join us by reaching out to those in your local community who have been most affected by the economy, job losses and other hardships.

We're asking you - our friends and clients - to add non-perishable food items to the enclosed bag (jump start included) and to drop it off at your local food bank.

Or please consider participating in food programs in your local communities as suggested by our newspaper partners - listed separately

Our deepest thanks for the opportunity to help build your brand in the local markets where people live, shop and buy.

A safe and happy holiday season to you and yours.

From your friends at Mediaspace Solutions.
